

Hi Everyone:

What a kaleidoscope of scenes and colors this weekend with all the snow and ice. Sure hope you were able to get out and photograph the beautiful trees and bushes with the ice. Macro work was great and you could get some very interesting images using the lens couplers on your regular lens to get REAL close to the ice crystals. It is supposed to be around 48 degrees today so it should all melt off making for some nice scenes in the smokies of the running creeks and rivers full of water from the snow run offs too.

Oh before I forget it, Thank you to those who emailed me about the "wild hog" shot in the News Sentinel. They were in fact wild hogs and were clear on the paper's web site but really looked like black bears in the printed version.

Anyway so much for the dreaming, here are some notes for this week:

cameras and dust off the tripods to take them up there for some neat images this week.

Now get out and shoot, shoot, shoot before they close the roads in the smokies.

Make it a great week everyone and I hope to see you tomorrow night at the SANP program

with Nye Simmons.

PS: If you do not want to receive these weekly notes, please email me and I will remove your email address from the master lists. If you receive more than one copy, please simply DELETE the other copies as the list is from 11 different lists and it is very time consuming to eliminate the duplications. Thank you.

(1) CLUBS

SOUTHERN APPALACHIAN NATURE PHOTOGRAPHERS CLUB:

The next meeting of the club will be next week TOMORROW Tuesday evening January 26, 2010. The presenter will be Nye Simmons on Nature. He has authored or co-authored several books on nature photography and always has a great program.

Date: Tuesday, January 26, 2010

Time: Social time 6:30pm/Meeting 7:00pm

Location: Goins Auditorium, Pellissippi State Technical Community College

Our program this month is Nye Simmons. He will be presenting a program based on his book, Best of the Blue Ridge Parkway. This beautiful guidebook, written primarily from a travel perspective, includes some of the best photographs ever taken of the BRP. This program will include approximately 100 images both from Best of the Blue Ridge Parkway and his website, as well as newer work not yet published. This presentation will be in random order relative to location and date taken, combining both film and digital captured images. The discussion will be free-form, ranging from locations to techniques wherever questions may lead.

BIO

Nye is a writer photographer living in Knoxville, Tennessee in the shadow of the Great Smoky Mountains, near the southern end of the Blue Ridge Parkway. Photographing and writing about the Southern Appalachian Mountains provides him an avenue of expression and an opportunity to share his experiences with you. Published in regional and national publications, his ongoing emphasis is classic landscape photography. He has belatedly and with great sense of loss given up working with color films using the traditional 4x5 inch view camera to 100% digital photographic imaging, now using a phase 1 P45 39-megapixel system. Best of the Blue Ridge Parkway is his 4th book. Previous titles include Tennessee Wonder and Light, the Smoky Mountains Photographer's Guide (with Bill Campbell), and Great Smoky Mountains Wonder and Light (with Jerry Greer and Bill Lea). He also was a contributor to The Ultimate Guide to Digital Nature Photography, published in 2009 by Mountain Trail Press. Although he is no longer active in SANP, Nye was one of the charter members of SANP.

2010 SALON VOLUNTEERS NEEDED

Our annual SANP Salon is scheduled for February 27, 2010. Mike Naney has graciously agreed to be the chairperson for the second straight year. We need other members to volunteer for other duties required for the judging and the event itself.

For several years now the same members (for the most part) have been involved with bringing this event to fruition. They have done an excellent job, and there is a good template already in place for the logistics of the process.

I would ask each member to consider helping with this event. If you are willing to help, please contact Mike Naney at 865-696-2772 or mtnaney@knology.net or Kendall Chiles at 865-363-1525 or kchiles@knology.net.

SANP is pleased to announce that Canon “Explorer of Light” Adam Jones will be presenting a workshop weekend for us on Saturday and Sunday, **April 24 & 25, 2010**. Each day will be a distinctly different workshop.

On Saturday, April 24 Adam will be presenting a classroom workshop, sponsored by Canon, in the Goins Auditorium at Pellissippi State Technical Community College. This workshop will have a limit of 150 people (capacity of Goins Auditorium) and include lunch at PSTCC cafeteria. Cost for Saturday will be \$20 per person and pre-registration is required. Pre-registration will be limited to SANP members only until February 15.

After February 15 pre-registration will be open to the public, and we will be sending information to other photography clubs in the East Tennessee area. Please make your check to SANP.

On Sunday, April 25 Adam will lead a hands-on field workshop in Great Smoky Mountains NP. This workshop will be limited to 20 participants and will cost \$75 per person. Because of the anticipated demand for this field workshop and its limited size, we will have a lottery drawing at the Salon on February 27 to determine the 20 participants and also 10 alternates for a waiting list. You must attend the Saturday, April 24 workshop to be eligible to attend the Sunday, April 25 workshop. Deadline to enter your name in the lottery drawing is February 15, and payment must be made by March 15 and is non-refundable. To have your name included in the lottery, send an email titled "Adam Jones Workshop Lottery" to kchiles@knology.net by February 15. This Sunday workshop will be open to SANP members only. Please make your check to Adam Jones.

A note from Troy Keesee about Moose Peterson's web site.

I know that many of the other photographers that I know have pushed the shutter button thousands of times more than I, but upon reading what Moose and his group saw in Yellowstone this past week and probably at other times I felt that the link to the blog might be worth posting in your weekly letter with hopes that all would read it. Personally I had never thought about NOT getting the shot. Yes, I do enjoy the silence of the moment and allowing that moment to be only implanted in my mind and soul but I would still work to get the shot.....not at the expense of the behavior of the animal, but still try. The comments from Moose are worth the extra minute or two it would take them to be more observant of what belonged to wildlife long before man or the camera came along.

To those of you who are receiving several copies of this note, just think how popular you are!!!

Now get out and shoot, shoot, shoot before they close the roads in the smokies.

With all the good camera club meetings scheduled for this week, if you have cabin fever, this is the time to get out with some friends or friends to be and check out the local clubs.

Now lets make it a great week.

Larry

PS: If you do not want to receive these weekly notes, please email me and I will remove your email address from the master lists.
